

Environmental & Social Responsibility Policy

Here at Hall Hill Farm we are committed to providing a good quality service whilst minimising the environmental impact of our activities.

As part of this commitment we are members of the Green Tourism Business Scheme. The scheme provides accreditation and encouragement for tourism businesses to reduce the environmental impact of their activities. By encouraging sustainable practices the scheme ensures the continued enjoyment of the environment around us for future generations. We also ensure that we will comply with the environmental law and our legal duty of care requirements for waste disposal.

We are undertaking the following actions in order to achieve this:

- We comply with the requirements of environmental legislation and approved codes of practice.
- We continuously seek to improve our environment and social performance.
- We monitor our use of energy, water and waste to find measures to reduce our pollution, emissions and waste.
- We raise awareness, encourage participation and train employees in sustainable business practices.
- We assist customers to use products and services in an environmentally sensitive way.
- We have minimised our risks associated with social and environmental issues.
- We have joined the Green Tourism Business Scheme as an indicator of our sustainable practices.
